

Renewal in the Rain

SCIENCE WORLD RENEWAL

October 2010

Notice the Glasroc. It's like drywall. Some of it is leaning against the scaffolding and some has actually been attached to the building. We're getting exterior walls again!

Purple goo!

It's spray foam insulation.

SCIENCE WORLD: WE'RE BRIDGING THE SCIENCE GAP.

A core from the deck. Looks thick enough to support thousands of adoring visitors right?
What do you think is right under the deck?

Big changes are taking place at Science World. Vancouver's iconic dome is undergoing a \$35 million renewal - the biggest in our history!

Science World is a registered charity dedicated to engaging British Columbians in science and inspiring future science and technology leadership in our province.

With your support, this incredible expansion will improve the Science World experience for visitors and members for years to come.

**You can help us complete this exciting renovation!
Donate online today at www.scienceworld.ca/donate
or phone 604.443.7483 for more information.**
