We offer a creative venue for a wide variety of special events. Due to the unique nature of the building and its operations, we'd appreciate that all our catering partners adhere to the following conditions.

RENTAL EQUIPMENT AND SUPPLIES

All rental equipment and supplies are to be delivered after 3 pm on the day of the event (including Saturdays and Sundays) to the Loading Bay. Science World assumes no responsibility for checking or counting items or ensuring their safety.

Teardown must occur immediately after the event and all rental or decor items removed from the building. If this is not possible, arrangements can be made to have the rental items left overnight in the Loading Bay. However, they must be picked up the following morning (including Saturdays and Sundays) between 8:30 am and 10:00 am.

MOVE-IN AND CLEANUP

Setup of events shall not begin prior to Science World's closing time, unless by special permission of the Facility Rentals Department. Closing time is 5 pm Monday through Friday and 6 pm on weekends, holidays and spring, summer and Christmas breaks.

At the end of the event, it is the responsibility of the caterers to conduct a thorough cleanup of all the areas used. All exhibit and public areas must be clear and clean for the next day's activities. Floors of all areas used as prep rooms must be swept and mopped and garbage removed from our premises. We will provide cleaning supplies.

Caterers will be charged for any cost incurred by Science World for unusual cleanup such as shampooing major stains on the carpet, removal of garbage left behind or any damages done to the premises.

FLOOR MATS AND COVERING

All bars, meat carving and coffee stations, temporary kitchen and clearing stations set up on the carpeted area shall have protective covering placed beneath and around them.

GARBAGE

All garbage must be bagged from areas where food has been prepared and served and taken away at the end of the event. Science World will supply replacement bags for the cans. If Science World's dumpster is used and extra pick up is necessary, the caterer will be invoiced for this. The dumpster outside the Triple O's loading bay is NOT to be used, as it belongs to the café operator.

SIGNAGE AND DECOR

All signage and decor brought in must be free standing. Signage and decor on exhibits and walls are not permitted. Only air-filled balloons (not helium) are permitted. Use of confetti and sparklers is prohibited. There is a restriction on the number of candles that can be used on tables. Relocation of exhibits is prohibited unless previously agreed to by Science World.

PARKING

Only the supply van may be parked outside the assigned area during the event. All other vehicles found parked around the building will be towed, as the promenade is considered a fire lane. Private vehicles of staff can be parked in the paid parking lots in front of the building or in the staff parking lot located south of the building, with prior approval of the staff in charge.
