?

What muscles do you use at this exhibit?

Search

SARA STERN GALLERY

Find and open a Discovery Drawer.

What is in it? What is a feature all the items in the Drawer have in common?

Choose a living thing on display.

What are some adaptations that make this organism well suited to its environment?

?

What other animals and plants may be part of this organism's community?

Choose a non-living object on display.

What is the origin story for this object (where did it come from/how was it formed)?

Find **T. rex: the mechanical dinosaur.**

Locate a **KEVA block structure** in the wall display.

PUZZLES & ILLUSIONS

Choose a **puzzle.**

What is it called?

How long did it take you to solve it?

? Take a look inside. Can you find and draw a motor, spring, or gear used to make it move?

? Estimate the number of blocks used to build one, then find the answer on the side of the box.

We saw the _____
stage show

Our favourite part was...

Imagine you are one of Science World's creative exhibit builders.
What would your exhibit do?
Draw a sketch of it here:

Go to the **Infrared Harp.**

What are the strings made of?

Go to **Lift Yourself.**

What simple machines are used to make the task easier?

Go to the **Whapophone.**

Do long pipes make higher or lower sounds than short pipes?
