

Become a
FUTURE
SCIENCE LEADER!

Thank you to our donors

Future Science Leaders would not be possible
without the generous support of:

Anonymous, in Honour of Connor Twa.

We also acknowledge the financial assistance
of the Province of British Columbia.

SCIENCE
WORLD

Do you want to change the world through science?

What is *FSL*?

Future Science Leaders (FSL) presented by Acuitas Therapeutics is a weekly after-school science enrichment program that opens the world of science, technology, engineering, and math to secondary school students.

The **DISCOVER** program

Features expert-led innovative learning and skill-building techniques in a wide variety of topics that can include physics, environmental sciences, biology, chemistry, mathematics, technology, and social science.

What will you do?

- Meet and learn from professionals in a variety of careers
- Create a lifelong network of like-minded peers
- Develop the skills critical for a career in science: laboratory skills and science communication
- Collaborate with others through scientific projects
- Learn to think critically in a scientific context

“ I can say 100% I would not be doing this job right now which I really love (research engineer at VGH) without *FSL*. The network and support continue when you leave the program.”

Edward Wang, *FSL* Discover 2012,
Research Engineer at
Vancouver General Hospital

Extension Programs

Students completing the Discover program are eligible to apply for:

The **INNOVATE** Program

Learn contemporary technical skills in life science or applied science – your choice! You will also complete a 10+ week project written as a scientific paper on a topic important to you.

The **IMPLEMENT** Program

A final program that supports advanced independent work with mentors for the entire year.

“ *FSL* helped jumpstart my passion for engineering, which led me to start my engineering club at school, develop a machine learning algorithm that helps detect skin cancer, and ultimately achieve a \$100,000 scholarship.”

Xavier Lam, *FSL* Discover 2018,
Schulich Winner

***FSL* programs are available in:
