

## Future Science Leaders—Application Checklist

Applications are open until May 1, 2023 at 11:59 pm. Throughout this document, you will see the acronym STEAM. It refers to science, technology, engineering, art and design, and math. We group these fields together because they represent a talent gap not only in BC industries but worldwide.

### Do you fulfill the requirements for the Future Science Leaders program?

- You are entering grade 10 or 11 in September 2023.
- You can travel to attend the program after school for weekly sessions from September through to the end of April, except for the school holidays of winter and spring breaks.
- As this course is a survey of many different fields you can demonstrate an appreciation of learning about diverse areas of science (e.g. Life sciences, environmental sciences, physics, technology, chemistry, and math).
- You can work successfully as a team member.
- You have both motivation and focus to work independently.

### References

*Please note: We will contact your references separately for more information about your application.*

*They do not need to provide anything at the time of your submission.*

- Name and email address of a personal reference (e.g. sports coach, mentor, supervisor, employer, family friend)
- Name and email address of an academic reference (e.g. tutor, school teacher, school counselor, music instructor)

### Prepare short form answers

- Where did you hear about Future Science Leaders?
- How would you benefit from the FSL program?
- Describe a time where you encountered a challenge and overcame it.
- Please list all extra-curricular activities you are involved with.
- Describe a time you got excited about a STEAM-related topic or experience.

### Have the following information on hand

- Your information (name, phone, email, home city, grade, secondary school)
- A guardian's contact information (name, phone, email)

Please follow the link to complete our online application once applications are open on February 1, 2023.
