

ABOUT SCIENCE WORLD

Science World British Columbia is a not-for-profit organization that engages British Columbians in science and inspires future science and technology leadership throughout our province.

ABOUT KEVA

- KEVA is a family run business located and operated in Bridgewater, Virginia.
- KEVA stands for knowledge, exploration and visual arts.
- The KEVA planks are manufactured in both pine and maple. The maple planks are manufactured in Maine, while the pine ones are manufactured in China.
- KEVA is a permanent gallery here at Science World at TELUS World of Science.
- We have about 15,000 maple planks within the gallery.
- Many of the structures behind the fencing are glued, except for the large tall tower.

KEVA

Customer Brochure

Create sculptures that
challenge the laws of gravity!

WHAT IS KEVA?

KEVA planks are perfectly-cut, identical construction blocks that stack with great stability. Narrow towers can reach any height! The construction system provides a unique building experience for people of all ages—KEVA enthusiasts range from toddlers to professional architects, because everyone can enjoy building at their own skill level.

Explore science and art through the ingenuity of your imagination. Using wooden planks, create anything. Defy gravity. Create your dream city. Shape your world. Simply. Beautifully.

KEVA BENEFITS

Recent studies have shown that children who play with blocks often do better in mathematics and physics later in their lives. Verbal and communication skills are also enhanced as children construct projects together.

KEVA is an activity that the whole family can participate in, making it a great way for families to spend time together.

Since each piece is identical, you don't waste time looking for specific pieces. The plank design challenges the imagination and enables anyone to build amazing sculptures. KEVA is equally as fun and challenging to the young and old alike.

WHAT YOU CAN DO IN THE KEVA GALLERY:

- Enter the gallery and take a walk along the path to view the variety of structures that have been built.
- Find a place on the floor and enjoy your building experience. The room is set up in a way that gives ample space for visitors to create.
- Take a photo of your structure and upload it to Twitter. It will then be placed on the KEVA monitor for others to view. #SWKEVA
- Post a photo of you along with your structure. Be sure to sign the release form in order for your image to appear on the monitor.
- HAVE FUN!

To experience the fun of KEVA at home, visit Kaleidoscope, our science store and check out these kits: Contraptions, Trebuchet, Structures, Wrecking Ball, Catapult and KEVA Maple.

Be sure to check out KEVA on YouTube and enjoy the great knockdown segments.
