# Investigating Children's *Implicit Theories of Emotion*

# Do children believe people can change how emotional they are?

We created a study and are looking for children ages 10-12 to help us find out!

Kids answer questions online and play a computer game at home

All children will receive  
Amazon.ca gift certificates  
worth \$50 for participating!

Have questions about this study or

***how to participate (for children ages 10-12)?***

Email us at: [livinglab@psych.ubc.ca](mailto:livinglab@psych.ubc.ca)

This study is funded by:

Barbara Ditmars Fund

Sackler Scholar Programme in Psychobiology

Harvard University
